**Description of 450 characters**

Stop wasting your time going to article directories to submit your content. Loose the frustration of having your articles rejected because they're not formatted using each directory's specific and confusing rules! Article Submitter is the fastest and easiest way to submit your content to over 255 directories. Just one click of a button and Article Submitter starts publishing your content the right way!

**Description of 200 characters**

Semi-automatic submission to the most current list of directories lets you focus on writing content, not submitting it.

Stop wasting your time going to article directories to submit your content. Loose the frustration of having your articles rejected because they're not formatted using each directory's specific and confusing rules! Article Submitter is the fastest and easiest way to submit your content to over 255 directories. Just one click of a button and Article Submitter starts publishing your content the right way!

The Article Submitter software provides these advantages:

- Easily submit your content to multiple directories.
- No more hand editing to meet different guidelines.
- Always have an up to date list of directories.
- Save time by automating all phases of submission.
- Lets you focus on writing content, not submitting it.

With Article Submitter you can easily submit your content to over 255 directories. With the click of a button, the software starts publishing your content. You won't even have to get on the web because submissions are all automatically done in the background, while you get back to work.

With all of the time, and frustration, you will save using Article Submitter; you can get down to your real goal of writing new content. The more time you save, the more content you can create, and the more benefits you will receive.
